

## **Panasonic's kids school "eco learning" Greece launch on 8th October 2012**

On 8 October, 2012 in Crete, Panasonic's kids school "eco learning" Greece was kicked off using the opportunity of a 2 week International Sustainability Summit, hosted by ESA\*\* (European Sustainability Academy).

Greece is the latest of 20 countries to participate in this Panasonic eco education programme in Europe and CIS region.

ESA wishes to work very closely with Panasonic on contributing to the environmental education of the next generation of Greeks.

\*\*ESA: European Sustainability Academy

ESA is a Sustainable Business and Corporate Responsibility International centre for management and leadership teaching and business management research. ESA has a fully sustainable purpose built seminar and conference facility on the Greek island of Crete.
