

UN issues summary of discussions from the Forum on Business and Human Rights

On 4 and 5 December 2012, the UN held its first annual Forum on Business and Human Rights, aimed at addressing “how the global community should move from business and human rights principles to implementation in practice.” The forum took stock of the developments in this field after one and a half years since endorsing the Guiding Principles on Business and Human Rights and heard from an expert panel including CSR Europe members: Hitachi, Microsoft, TITAN and Total. The summary provides a brief overview of the proceedings and can be accessed here
