

## Poland celebrates winning partnerships of the European CSR Award

The award in the Small and Medium Enterprises category went to Horus Innowacyjne Materiały Przemysłowe Sp. z o.o. for the visibility on roads project (“Be Visible – Be Safe”) implemented with Bydgoszcz city authorities and other social partners. The company was appreciated for grassroots employee practice implemented in the local community and involving a number of sectors and partners, and very clearly connected with the company’s main line of business. Horus was also recognised for its fresh outlook on CSR and excellent execution of the project.

Orange Poland was the winner in the Large Enterprises category for the safe web project (“Safety on the Internet”) run in collaboration with Dzieci Niczyje Foundation. The project touched upon an important social problem and was a challenge for the industry. The award recognised the trust manifested by Orange Poland towards the Foundation, which facilitated excellent cooperation between the business and the social partner.
