

Cosmote, Romtelecom unveil most supported CSR causes

The most promoted causes on Cosmote Romania and Romtelecom's recently launched CSR online platform teimplici.ro are promoting a sustainable life style, supporting talented youth through so-called excellence scholarships, providing an education for a greener future, assisting the victims of domestic violence, and developing specialisation programmes for young medics. Through this platform, anyone can propose and support areas of social responsibility causes. The teimplici.ro platform will start the registration and voting process of projects as of 1 August.
