

Johnson Matthey publishes 2015 Annual Report

Johnson Matthey has published its 2015 Annual Report which is an integrated report covering all aspects of the company's financial and non-financial performance. It is available online at www.matthey.com/AR15.

The report, which is titled 'Sustainable Technologies for Today and for the Future', aims to demonstrate how Johnson Matthey delivers superior long term growth for its stakeholders through the creation of value adding sustainable technologies. It combines the company's financial, health and safety, social, environmental and governance performance and reflects the five elements of sustainability which Johnson Matthey believes have a material impact on its business.

Sustainability continues to be a key element of the group's strategy for growth. The integrated report reflects the group's values and determination to build a sustainable business based on its expertise in complex chemistry, as well as communicating to all its stakeholders its commitment to sustainable growth.

Highlights in the report include:

- Details of Johnson Matthey's business model and strategy to achieve its vision of building its 3rd century through value adding sustainable technologies.
- A review of financial, health and safety, social, environmental and governance performance, including an update on the group's progress towards its Sustainability 2017 Vision.
- Case studies highlighting examples of Johnson Matthey's sustainable technologies and products and how they are creating value for its customers.

Johnson Matthey welcomes your feedback on the report – please email [jmpmr@matthey.com](mailto:jmpr@matthey.com).
