

The Decade of Action – The Responsible Business Summit New York Returns

We've been taking from the environmental future for the economic present and we're now on the cusp of a decade of consequences. A climate emergency, global social inequalities, biodiversity loss and increased investor and consumer pressure for business to act. Business needs to step up ambitions to tackle and adapt to the changing climate.

We need action. New ways of collaborating. New business models. New forms of investments.

At The Responsible Business Summit New York 2020 [March 17-18] we will convene 750+ leaders from across the globe to share their latest strategies, and more importantly, tangible insights into how they are helping deliver the required transformation of business. How they're delivering a sustainable economy.

Download the brochure for the full speaker line-up and agenda now!

The brochure comes with all the information you need about this unique event, including:

- The detailed agenda designed in collaboration with our advisory panel: From performance-based metrics for investors, climate adaptation, ESG going mainstream, the ROI of sustainability and resilient supply chains, we're bringing corporate sustainability, investors, NGOs and government representatives for two full days of actionable insights.
- The world's biggest brands headlining the event: Check out the full speaker line-up and why they think the meeting is a must-attend. Key speakers include:
 - o CEO, Firmenich
 - o CEO, Hanesbrands
