

Copenhagen: 17 ECOWEEK project chosen to be realized in Northwest area!

NEWS from KEA - School of Design and Technology: The President of the Local Committee of the Northwest area of Copenhagen, Alex Heick, announced that the Municipality of Copenhagen has decided to use 17 of the ECOWEEK solutions (out of 26) in the realization of the projects! The projects include: apartment block pathways, climate change adaptation, active gardens and urban farming, a new park in Emaljehaven, environmentally aware playgrounds, therapy gardens, a street market (image to left, group 2.8), new bike sheds, a new car park, the reuse of an abandoned office building, rainwater draining, and a 'green' extension of Karen's house.
